Hello everyone,

We will be continuing the discussion on LHP in this formaldehyde meeting. I have re-attached the few items from the last meeting.

At this kick-off formaldehyde meeting (please look at the attached agenda) - we will focus on the LHP issue (another attachment below). The third attachment is a list of other issues and will NOT be covered today but sent by the team so we are aware of them at this point in time. Lastly, attached is formaldehyde team's first stab at the NAS checklist.

If I have missed anyone - please forward this onto them.

Dave
